## The Twistable Puzzle/ Of Creative Fun!

**RUBIK'S Transformable Snake** is the twistable challenge of unlimited puzzle shapes. Start twisting and watch amazing figures take form. Turn a snake into a swan. A bat into a ball. A turtle into a terrier. All with just a few twists of your imagination.

**RUBIK'S Snake** is the transformable challenge that sharpens your thinking about shapes and spaces. There are no limits to the shapes you can make, and **NO WRONG ANSWERS**. Try out the puzzles in this booklet, then twist up your own. **RUBIK'S Snake** is so addictive, you won't want to put it down!

**RUBIK'S Snake** is portable, long-lasting fun. It goes with you everywhere. Amazes and challenges your friends. Offers hours of play. It's the most popular snake in the world - the one that charms YOU!

## Meet RUBIK'S Transformable Snake

To do this, first note that **RUBIK'S Snake** is made of 24 triangles joined together. The end triangles are connected on 1 edge. All other triangles are connected on 2 edges.

Next, start by unwrapping Snake from its ball. The 2 end triangles are different colours and meet near the centre of one side. Find them by tugging lightly on different sections of the ball. The Snake will begin to uncoil when you're tugging at the right pieces, so don't worry about breaking the puzzle.

## Basic Moves

All the triangles can rotate 360° on their joints. Twist the triangles to form straight lines, angles, corners, switchbacks and crossovers.

Straight Line

One twist on a straight line makes a diagonal bend to the side.

Diagonal Bend

## Basic Angles

Two twists on a straight line make a 90° angle.

All other bends are made by twisting from a straight line, a diagonal, or a 90° angle.

## Basic Shapes

## Basic Shapes

Swan

Triangle

Bird Of Paradise

Hexagon

6

## Advanced Shapes

Bow

Frog

Propeller

Seal

7

## Advanced Shapes

Ball

Turtle

Snowflake

Keep twisting. There are hundred's of shapes to discover with **RUBIK'S Transformable Snake.**

8

## Twisting Hints

To make shaping easier, twist the unshaped end of **RUBIK'S Snake** out of the way as you work. Stop twisting if you feel resistance from **RUBIK'S Snake**. Turning the triangles in the opposite direction may work more easily. Do not force any twist or you will break the connection between triangles. Do not pull triangles away from each other.

**RUBIK'S Micro-Cube** is just one of a series of exciting puzzles designed to challenge the mind and capture your imagination. With amazing movement of colour and pieces, each puzzle offers an intricate challenge that is hard to put down. Look for these other popular **RUBIK'S** puzzles...

9

**RUBIK'S Double Tangram** - Rubik's has taken the classic tangram puzzle and **DOUBLED** the fun and challenge! Reconfigure the 14 double-sided pieces into a square or try to solve one of the challenging picture puzzles shown in the enclosed Solution Hints booklet. You can also create your own fun puzzles!

**RUBIK'S Soma Cube** - Rubik's has added a unique new twist to the classic Soma Cube. With nine unique bricks, you can build an amazing array of structures and forms, but the ultimate challenge is to re-assemble the bricks into a cube with the correct colour combination.
